

PROFESSIONAL SUMMARY

Dynamic Full Stack Developer with over 1 year of hands-on experience designing and implementing scalable web applications and desktop solutions using the MERN stack (React.js, Node.js, Express.js, MongoDB) and Tauri with Rust. Demonstrated expertise in creating responsive user interfaces, real-time telemetry dashboards, e-commerce workflows, society portals, and low-latency serial port hardware communication.

TECHNICAL SKILLS

Frontend Development:	React.js, Next.js, Redux Toolkit, Zustand, React Query, TailwindCSS, JavaScript (ES6+), HTML5, CSS3
Backend & Systems:	Node.js, Express.js, RESTful APIs, WebSockets, Socket.io, JWT Authentication, Bcrypt, Rust
Desktop & Embedded:	Tauri Framework (Rust + React), Serial Port Communication, Hardware Telemetry & Sensor Integration
Databases & Tools:	MongoDB (Mongoose), SQLite, Git, GitHub, Postman, Vite, VS Code, Linux

PROFESSIONAL EXPERIENCE

Software Developer | [Master Global Tech](#), Rajkot

Sept 2025 – Present

- **Panel Alarm & Fire Detection System (Front-End Development):** Engineered a responsive real-time web monitoring interface for fire detection panels and booster pumps. Integrated live telemetry data feeds to display water booster pressure gauges, heat/smoke status, and fault alarms, with automatic audio-visual alerts during critical hazard events. [\[React.js, TailwindCSS, Socket.io, REST APIs\]](#)
- **Society Mitra - Colony Management Platform (Front-End Development):** Designed and built the front-end user experience for a comprehensive colony & apartment management web application. Implemented interactive UI modules for resident member records, automated maintenance billing and payment tracking, digital visitor pass logging, and society announcement feeds. [\[React.js, Redux Toolkit, TailwindCSS, REST APIs\]](#)
- **SagarAqua Motor Starter (Web & Desktop):** Developed a remote monitoring solution using Tauri, Rust, and React.js that eliminated manual oxygen sensor checks. Engineered interactive polygon-based UI components to visualize master and motor connection statuses, and implemented bidirectional JSON data exchange via serial port communication. Integrated SQLite for local data management and sync. [\[Tauri, Rust, React.js, SQLite, Serial Port\]](#)
- **SagarAqua Diesel Engine Monitor (Web & Desktop):** Leveraged the core architecture to manage 'master' and 'slave' device configurations. Customized interactive polygon UI components and bidirectional serial communication flow to reflect real-time diesel engine status telemetry. Integrated SQLite for local storage. [\[Tauri, Rust, React.js, SQLite, Serial Port\]](#)
- **MGT-Editor (Desktop Application):** Built a fast, dedicated desktop Markdown editor using Tauri and React.js, leveraging Rust for low-overhead local file-system read/write operations. [\[Tauri, Rust, React.js\]](#)

Full Stack Developer | [Freelance Projects](#)

Aug 2024 – Present

- **Saree Queen E-Commerce Platform ([sareequeen.in](#)):** Architected and deployed an end-to-end online retail e-commerce platform for an ethnic clothing brand. Developed responsive product catalog filtering, cart and checkout workflows, administrative product/inventory management, and secure online transaction processing. [\[React.js, Node.js, Express.js, MongoDB, Redux Toolkit\]](#)
- **Shri Chital Gurukul Educational Portal ([rchitalgurukul.com](#)):** Designed and developed a fully responsive web portal for an educational institution. Implemented dynamic event showcases, media galleries, academic course information, inquiry contact forms, and an intuitive administrative update console. [\[React.js, TailwindCSS, Node.js, Express.js, REST APIs\]](#)
- **Venshita Foundation NGO Platform:** Developed backend infrastructure with Node.js and Express.js supporting donor contributions, sponsorships, and an integrated e-shop. Integrated Razorpay gateway and JWT authentication with Redux state handling. [\[Node.js, Express.js, MongoDB, Razorpay\]](#)
- **Shiveninfo Tech Project:** Engineered secure backend RESTful APIs using Node.js, Express.js, and MongoDB with JWT authentication and Bcrypt hashing. Created admin dashboard modules for categorized project administration. [\[React.js, Node.js, MongoDB\]](#)

EDUCATION

Bachelor of Computer Application (BCA) • Saurashtra University, Rajkot [\(CGPA: 7.6\)](#)

Aug 2020 – Apr 2023

I hereby declare that all the above information furnished by me is correct to the best of my knowledge.

Waiting for a favorable reply,
Thank You

Yours Sincerely,
Anil Kantariya
